

# Covid-19 Prevention at CHC

SARS-CoV-2 is the name of the virus that causes Covid-19

## Reduce the Spread!

- Handwashing! Handwashing! Handwashing!

- Social Distance- stay 6 feet apart from other people, wear a mask.

- Wipe down all high touch surfaces with approved sanitizer

## Self Monitor!

- Don't come to work if you are feeling ill or have a fever

## PPE (Personal Protective Equipment)

When visiting a Covid+ patient

- KN95 Mask
- Gown
- Goggles
- Gloves

*Remove PPE outside a Covid+ patients home whenever possible*

## Covid is passed through respiratory droplets

### Wear a Mask!

- Whenever in common areas at CHC
- A surgical mask on routine visits with patients with no symptoms
- KN95 for Covid+ and (nurses) if helping any patient with a nebulizer

## Think your patient is Positive?

- Tell your Supervisor and anyone else involved immediately!

## Stay informed!

CDC.gov is the best resource for information and guidance related to Covid-19
